Dear Parents:

The Lakes Area Summer Program is offered to children ages three (potty trained) through nine years. The program will offer Montessori skill building activities. In addition, weekly themes will enhance the program and include: Legos and Friends, Gardening/Planting, Yoga Blast, Art & Painting, Dinosaurs, and Exploring Science.

Our own Montessori Directresses and office staff will be working together with the students throughout the summer of 2017.

To enroll your child in our summer program, fill out both sides of the enrollment form completely and return it to the school along with your deposit.

We would love to have you join us for this exciting summer program of learning and play!

Please contact the school office for any questions at 248-360-0500.

Lakes Area Montessori Summer Program 2017 Special Visitors

Week 1: Imagination Theatre

Join us for learning and fun as Sunset Theatre Company takes us into the world of the “Lego Movie”. We’ll play fun theatre games and act out different characters from the movie. We will even have fun singing and dancing to some of the songs from the “Lego Movie”. It will be an event that all will enjoy!

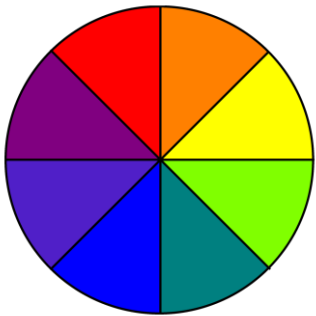

Week 2: Curious Minds with “Sensational Seasons”

When and why do tornados happen? What is thunder? Is each snowflake really unique? We’ll answer all these questions and more as we discover Sensational Seasons.

Week 3: Ms. Michelle with a Yoga class

Be prepared to discover the wonders of various herbs and essential oils used for meditation and yoga practice, to calm and ground the child. Children will explore essential oils that stimulate the mind and/or calm the nervous system.

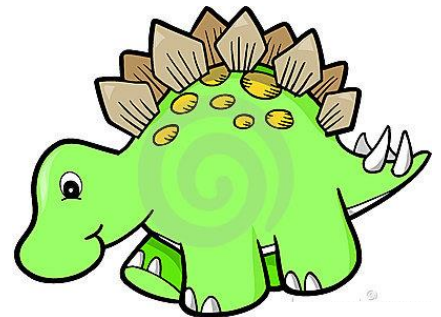

Week 4: Curious Minds with “Color Crazy”

Discover all the colors of the rainbow as we sing, dance, make color explosions, work with prisms and light up the room with a colorful glow.

Week 5: Curious Minds with “Digging Dinosaurs”

Become a Paleontologist as we learn important facts about our prehistoric friends, make fossils, and build our own volcano.

Week 6: Painting with Ms. Mary

Learn about our solar system and paint a starry scene complete with rockets, fiery comets, and star constellations. Children will have fun painting on their very own canvas using sparkle and neon paints!

Lakes Area Montessori Summer Program 2017 Weekly Themes

Week 1: (June 19-23) *Legos and Friends*

What's the number one way to have an awesome time at camp? Making Friends! Campers will enjoy creative activities and zany fun working together to create a caring community. Campers will apply their own unique interests and talents to creatively build and design with Legos. We will discover and encourage budding engineers and architects with daily activities.

Week 2: (June 26-30) *Gardening/Planting*

Campers will have fun with nature. They will be learning how to plant seeds and take care of them. Children love digging in the dirt and will enjoy finding out what nature has to offer as they plant flowers around the school.

Week 3: (July 5-7) *Yoga Blast*

Children derive enormous benefits from yoga. Physically, it enhances their flexibility, strength, coordination, and body awareness. In addition, their concentration, sense of calmness, and relaxation improves. Come join Ms. Michelle for adventures in yoga, learning basic yoga poses, activities, and fun games!

Week 4: (July 10-14) *Art and Painting*

Campers will enjoy creative art projects with finger paints, water colors, and glitter paint. Children will have an opportunity to learn different painting styles, techniques, and much more.

Week 5: (July 17-21) *Dinosaurs*

Campers will have the opportunity to learn about dinosaurs and tell you all about their paleo-adventures at the dinner table. They will be digging and using their tools to excavate dinosaur fossils.

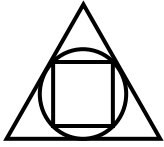

Week 6: (July 24-28) *Exploring Science*

Campers will learn what science is and what scientists do. They will have an opportunity to learn about various branches of science such as: matter, energy and force, electricity and magnets, earth science, the human body, and chemical reactions using common kitchen ingredients. We will do some experiments and have group scientific discussions. Safety while engaging in science experiments will be emphasized.

*See back of this form for details about
In-House Visitors joining us each week!*
